To Renovate City Hall

BEFORE AFTER

All through grade school if Susan Stevens even played "put out" at recess, she had to go lie down.

But as of this month, Susan has doctor's official permission to turn basketball star.

The trouble is Susan mourns, "I don't know how."

When she learns to sink the long shots, the petite Bay St. Louis seventh grader will have a lot of folk on her team and in the bleachers cheering for her.

Among others, there'll be her surgeon and child heart specialist at the University Medical Center in Jackson. There'll be the Mississippi Heart Association volunteers who take a particular interest in her progress. There'll be people from the public health department and the Crippled Children's Service. All are important players on the team which brought Susan to the Medical Center in Jackson for surgery last June.

Her huge, shining brown eyes momentarily dimmed by the disgrace of being 12 years old and not knowing how to play basketball, Susan confesses that she was born with a heart defect.

"It didn't worry me much," Susan says, "except that I couldn't catch my breath when I played kick ball."

Their pediatrician told them Susan had a heart murmur when she was a baby, Mrs. George Stevens reports. In each new town and new school, medical examinations turned up a "probable pinched artery" opinion, but Susan had no noticeable symptoms.

Even so, Mrs. Stevens took the time to serve as Heart Sunday volunteer in New Orleans.

"My neighbor said I was nuts," Mrs. Stevens laughs. "I had a houseful of babies, and my husband traveled, but I said I'd help because I had a little girl with a heart murmur."

"I've always felt if you do a deed yourself, some way it pays off. It has for Susan," her young, widowed mother believes.

Bay St. Louis City Council Monday awarded a contract to Alford and Associates, Inc., of Biloxi for renovation of the top floor of city hall.

Specifications call for renovation of the top floor, including the Chamber of Commerce.

Work will begin within 30 days after signing the contract which calls for completion within 90 days from the beginning of construction, Commissioner Cyril Glover stated.

While we are on the subject of
dogs there are a lot of them run-
ning around loose, turning over
garbage cans, keeping folks awake
and in other words becoming nuis-

be done about them. With summer
time coming on there will be a lot
of danger of children being bitten
by rabid dogs. A good dog and
pet should be kept penned up, vac-
cinated and wearing the proper
dog collar and tag.

For those who like to catch big
fish our friend Eddie Robertson
and fishing partners E. L. Van
Every and Chas. L. Fain, of New
Orleans, caught 2 sailfish in Aca-
pulco, Mexico weighing 128 and
130 pounds and Fain's striped mar-
lin weighed 245 pounds. The mar-
lin was caught on a Spanish
mackerel for bait. The men are
having the big fish mounted in
Mexico and will be souvereigns of
a wonderful fishing trip. The Cap-
tain said the mackerel used for
bait cost about 10 pesos equivalent
to 80 cents in American money.
For those who ask where can I
catch some "big" fish? Here is
your answer.

Of course, the moon has a lot to
do with fishing, soft-crabbing and

Wayne loves golf as well as o'er

among the best.

Some robins were seen last

protect our song birds, feed them,
build bird houses they will become
more domesticated and hang

VISITS ST. ROSE
STUDENTS

On Tuesday, January 26, Miss
Patricia Pates, a staff member of
the National Scholarship Service
and Fund for Negro Students,
visited the sophomores and juniors
of St. Rose de Lima High School.
In an assembly, she placed before
the students the opportunities
available to them. She stressed the
need for scholastic achievements
and development of potentialities.
Miss Pates assured the students
that the NSSFS will provide them
with financial assistance on con-
dition that they qualify. She re-
minded the students that in order
to be eligible for this considera-
tion, they must take either the
Preliminary Scholastic Aptitude
Test or the National Merit Schol-
arship Test.

Miss Pates spoke to individual
students who qualify for this fi-
nancial help and are interested in
college education.

On this occasion, the juniors and
seniors invited Miss Pates to a
panel discussion on preparation for
college. The panelists repeatedly
emphasized points that Miss Pat's
spoke of in her talk to the students.

'65 FEED GRAIN
PROGRAM SIGNUP
UNDER WAY

The signup for the 1965 feed
grain program (soon will be) under
way the ASCS county office,
Tommy R. Shaw, Chairman of the
Hancock Agricultural Stabilization
and Conservation County Commit-
tee, has announced. The signup
period (star.ed) February 8 and will
continue through March 26.

The chairman explained that the
program for 1965 is basically the
same as in 1964. It is voluntary,
and combines corn, grain sorghum,
and barley in a single feed grain
base. Participating farmers will
qualify for diverted — acre and
price support payments, and they
will be eligible for price support
loans.

Farmers who take part in the
program may divert for payment
as small an acreage as 20 percent
of the farm's feed grain base or a
large an acreage as 50 percent of
the base — or 25 acres, if this is
larger.

Two rates of diversion payment
are offered. The lower rate applies
to the first 20 percent of the feed
grain base actually diverted. The
higher rate applies to diverted
acreage in excess of the minimum.
If both the intended diversion and

the acreage actually diverted are
equal to at least 40 percent of the
base, the higher rate applies to the
entire acreage diverted.

New provisions in the 1965 pro-
gram include an opportunity to
substitute feed grains for wheat or
wheat for feed grains by growers
who take part in both programs.
Applications to take part in the
1965 feed grain program may be
filed in the ASCS county office
from Mondays through Fridays at

any time between the hours of 8
a.m. and 5 p.m.

LOOK What's Happening To the Cost of Electricity

In 1925, electricity was a luxury. Our residential customers paid an average of 13 cents to burn a 100-watt light bulb for 10 hours.

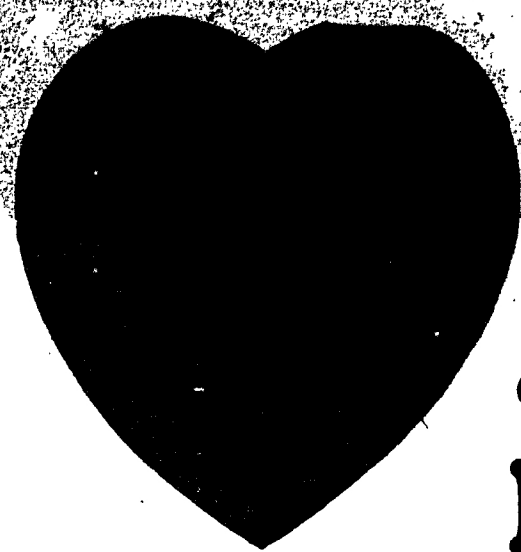

Today, it costs an average of only two cents to keep a 100-watt bulb burning for the same length of time.

How have we been able to lower our rates and still meet the rising costs of doing business? Increased operating efficiency is part of the answer. Another is people like you who are constantly putting more and more electricity to work.

We think electricity is the biggest bargain in your budget... and we intend to keep it that way.
